

U.S. 20-26 comments sent via e-mail:

Dear IDT:

The intersection of U.S. 20/26 and Conway Road near Notus is a busy intersection. Many cars turn into the Shell Station there (the only gas in Notus), and many others turn north on Conway Road to go to some new subdivisions north of the highway. Just west of the intersection as you enter Notus and all the way through town, there is a turning lane. It would be very helpful, I believe, if that turning lane could be extended east to that intersection.

Thank you for making Idaho highways safe and effective.
