FOR IMMEDIATE RELEASE

CLARK STREET / I-15 INTERCHANGE ENHANCEMENT MEETING #2

The City of Pocatello along with Myers Anderson Architects, invites you to join us to review the proposed design concept for the Clark Street / I-15 Interchange Landscape Enhancement project. In November we solicited your comments on the landscape enhancement portion of the Clark Street / I-15 Interchange project and we are ready to review the proposed design concept with you. This design is a culmination of input from residents and business owners who attended the November meeting, as well as research done on native plants, the regional climate and other factors that will influence this interchange. This project is being funded with enhancement money from the State of Idaho, and will be maintained by the City of Pocatello, Park & Recreation Department.

Clark Street Interchange is a highly visible premier location where we as a community can help to create a unique identity for Pocatello. A design model has been established that could be implemented, in part, as future beautification of other entrances to Pocatello. At this meeting, beginning at 5:30pm – 6:00pm you will have an opportunity to view the materials presented at Meeting #1, as well, you can read comments and input from the first survey. At 6:00pm, there will be a more formal presentation, where we will discuss the history of this project and the steps which lead us through the design process and to the final design concept. There will be a Power Point presentation, followed by a Question & Answer session.

Through landscape design we can express a positive community image, while being mindful of our environment, and welcome our visitors with pride. Our goal was to create an inspired design, while being sensitive to the maintenance and resource costs for this location. We look forward to seeing you at this meeting.

Open House: February 12, 2008

Time: 5:30 pm – 7:00 pm

Location: Pocatello City Council Chambers

Contact: Myers Anderson Architects, PLLC
