Year of Manufacture (Extra \$15.00 Annual Renewal Fee)

1974 and older passenger cars and trucks with a GVW of 26,000 lbs or less may display authentic Idaho license plates manufactured in the same year as the vehicle and for the same type of vehicle. Model years 1969, 1970, 1971, 1972, and 1973 are excluded from this program. Plates must be in serviceable condition as originally manufactured. The Year of Manufacture plates are restricted to “standard” issued Idaho plates, and exclude any special interest, special eligibility, or sample plates. Eligible plates must be originally manufactured with either a painted or embossed year on the plate for the year of the vehicle to be licensed. **A color photograph of the plate is required with the application.** By affixing your signature below, you acknowledge that these plates do not have the reflectorized materials to meet the requirements of Section 49-443(1), Idaho Code, and accept responsibility for any accident or injury arising out of any possible consequences of not having this reflectorized safety feature on the license plates.

Please Note: Call Special Plates before submitting your application to make sure your license plate number is not already in use by the Year of Manufacture Program. Year of Manufacture plates will become available to other applicants when the registration has been expired for six months or more.
