TIME: 3:10pm-3:40pm

PDH CREDITS: 0.50

PRESENTATION TITLE: Visualizing Corridor Health & GIS Analysis

SPEAKERS: Bill Loudon, PE, PhD, DKS Associates; Bill Shaw, PE & Tim Cramer, MS, ITD

DESCRIPTION: The corridor visualization system produces visual displays of how growth in key corridors will affect the future health of the state facilities and how investments can reduce the long-term impacts of the growth. The system includes GIS as the base platform where a variety of data on roadway characteristics, land use, population and employment forecasts, and traffic counts are stored and organized. The system also includes a module for producing travel forecasts from population and employment growth forecasts and from historical trends.
