Greetings, I live in Greenleaf. There are times that I really wish we had a stop light. I was thinking either at the Notus road intersection, or at the store/church intersection. The traffic going through town can be quite frustrating at times. It would be nice to have the road widened through Greenleaf also. I am sorry I didn't make it to the meetings you just had. Thanks for letting me get my opinion said.

State Highway 19 (Simplot Blvd.) has big cattle crossing signs with big blinking yellow lights near the Simplot Processing Plant. Years ago, when the feedlot was there, I'm sure these signs were very useful. However, Simplot has emptied the feedlot – it's not even there anymore. There are no cows. I believe the signs and lights are now distractions, rather than helps.
