## **CONCEPT DESIGN**

### **Preliminary Scope and Statement of Work**

The Idaho Transportation Department (ITD) and the Ada County Highway District (ACHD) are seeking consultant services for a concept design of the State St. and Glenwood St. Intersection. The intersection currently operates at LOS E.

To determine the best solution for this intersection, ITD, ACHD, and the selected consulting firm will develop and evaluate concept design alternatives. Success for this project will be measured by recommended alternatives that when implemented achieve the following:

1. Improved intersection functionality for all users, including those with disabilities.
2. Provide enhanced opportunities for pedestrian and bicycle connectivity.
3. Accommodates the surrounding current and planned land uses, including the proposed re-development of State Street as a transit-oriented corridor.
4. Complies with ACHD and ITD standards and supports the State Street TTOP.

The State Street Transit and Traffic Operations Plan (TTOP) highlights applicable in this area include:

1. The State Street TTOP calls for expanding the roadway to three lanes in each direction with bike lanes and a center turn lane. The two outermost vehicular lanes would eventually be reserved for buses and high-occupancy vehicles.
2. Support the development of State Street as a multimodal corridor.
3. This intersection has been identified as a high priority for a transit-oriented development hub. Any concept proposal should coordinate with the City of Boise's and the City of Garden City's long range development proposals for this location.
