

# CDArea Impacts

North Idaho drivers will encounter a number of projects in the Coeur d'Alene area this summer. The projects will repair and replace deficient pavements and upgrade routes and signs, resulting in more efficient traffic flow, better visibility and improved safety. Work will be done overnight and on weekends when possible to minimize traffic impacts to commuters, but drivers should expect lane closures and speed reductions.

Your Safety • Your Mobility  
Your Economic Opportunity

Slow Down • Pay Attention • Plan Ahead

- I-90, Northwest Blvd. to Sherman Avenue, Coeur d'Alene**  
**Timeframe:** Mid-May 2017 to late September 2018  
**Project Description:** Roadway reconstruction and resurfacing to full depth on I-90. 2017 work is from 9th Street to Sherman Blvd, and 2018 work is from Northwest Blvd. to 9th Street.  
**Traffic Impacts:** Lane closures, reduced speed, median crossovers, night & weekend work, expect delays
- U.S. 95, Cougar Creek-Blackwell Slough & Blackwell Slough to I-90 Overpass IC #12**  
**Timeframe:** May to August 2017  
**Project Description:** Roadway resurfacing and rehabilitation from south of CDA at the U.S. 95 crossing of Cougar Creek, north to the southern approach to the U.S. 95 Interchange Bridge over I-90.  
**Traffic Impacts:** Nighttime lane closures, reduced speed, night & weekend work, intermittent flagging, expect delays.
- I-90 Sign Upgrades, Kootenai & Shoshone counties**  
**Timeframe:** July to September 2017  
**Project Description:** Upgrading signs and sign structures along a 66-mile stretch of I-90.  
**Traffic Impacts:** Lane closures, reduced speed, intermittent flagging, night & weekend work, expect delays
- U.S. 95, Ironwood Intersection Improvements, Coeur d'Alene *\*City Project\****  
**Timeframe:** Ironwood & Emma April to September 2017; Ironwood & Medina\* mid-summer to fall 2017  
**Project Description:** Intersection Improvements, added turn lanes, and signalization.  
**Traffic Impacts:** Lane shifts, lane reduction, reduced speed, night & weekend work, expect delays
- Seltice Way Revitalization *\*City Project\****  
**Timeframe:** April 2017 to mid-summer 2018.  
**Location:** Seltice Way in CDA from Riverstone Drive to Huetter Road.  
**Project Description:** Roadway reconstruction and resurfacing, including roundabouts at Grand Mill Drive and Atlas Road, and bike lanes and shared-use paths.  
**Traffic Impacts:** Lane shifts, reduced lanes, reduced speed, expect delays
- I-90, Sherman Avenue to Blue Creek Bay Bridge**  
**Timeframe:** July to September 2017  
**Project Description:** A mill-and-inlay to address pavement damage to this stretch of road sustained during the winter.  
**Traffic Impacts:** One side of the interstate at a time will be closed completely, with traffic crossed over to the other side and narrowed to one lane in each direction.
- Government Way, Hanley Way to Prairie Avenue *\*City Project\****  
**Timeframe:** Mid-June to mid-fall 2017  
**Project Description:** Government Way will be completely reconstructed to include two travel lanes in each direction, a center turn lane, two buffered bike lanes, and sidewalks.  
**Traffic Impacts:** Traffic will be reduced to one lane in each direction.
