

Signals on Karcher at Lake and Midway will be activated TODAY, Dec. 11

The Idaho Transportation Department will activate signals on Karcher Road at Lake Avenue and Midway Road Monday, December 11.

Here is what to expect:

- Flaggers will direct traffic at the Karcher and Lake intersection as crews start the signal.
- Once the signal at Lake Avenue has started, flaggers will move to the Karcher and Midway intersection.
- The signal work is weather-dependent.

Over the next couple of weeks, construction crews will work on finishing clean-up activities in the area.

We appreciate your patience during construction on Idaho 55.
