

US-95 Granite North Safety Improvements

ITD is continuing safety and mobility improvements to US-95 at Granite Hill. The project will construct 1.5 miles of roadway expansion and includes the addition of frontage roads in the area.

The project is in the early design stage and you may notice field crews in the area gathering data. ITD will host a public open house in late spring of 2018 to discuss the project and gather comments, and will also conduct one-on-one meetings with individual property owners who may be affected by the project.

Persons needing an interpreter or special accommodations are urged to contact 800.377.3529 or TTY/TDD users dial 711 to use Idaho Relay System.

Se les recomienda a las personas que necesiten un intérprete o arreglos especiales que llamen a la coordinadora de participación pública, al 208.772.1295.
