Electronic Liens and Titles (ELT) Fact Sheet

Paperless Idaho titles are issued when a lienholder participating in Idaho’s ELT program is recording a lien. When an electronic (paperless) title is issued, it is sent via the AAMVANET network to the lienholder’s mailbox maintained by their service provider. It generally remains paperless until the lien is paid and the lienholder sends an electronic transaction back to ITD requesting issuance of a paper title. ITD prints the title the same evening as the request and mails it the next day to the address specified by the lienholder.

For a list of financial institutions currently participating in Idaho’s ELT program, click Idaho ELT Participants.

ELT Benefits for Lienholders and Owners

The ELT program benefits lienholders in that it saves them time and money through:

• Reduced handling/mailing costs. Paper titles must be received in the mail, opened, viewed, routed, filed, and stored. When a lien has been satisfied, the title must be located, retrieved, signed off by an authorized party, photocopied/scanned, and then mailed to the owner or party that sent payoff. A photocopy has to be verified to be a true copy of the original and then mailed to ITD for notification as required by Section 49-511, Idaho Code.

When participating in Idaho’s ELT program, the lienholder receives an electronic transmission and maintains the record on a database. When the loan has been satisfied, the lienholder sends an electronic transmission to ITD who prints a paper title and mails it to the owner or to another party specified by the lienholder. The transmission not only accomplishes the title transaction, but also satisfies the lien clearance notification to ITD.

• Faster confirmation of lien recordation. Electronic transmissions are received overnight.

• Reduced storage space needed for titles. There are no paper titles to store.

• No “lost” titles requiring the application for duplicate title and $14.00 fee. There are no paper titles to lose, so there will be no need to complete applications and pay for duplicate titles.

• Some title transactions are no-charge. When an electronic lienholder has a lien on a vehicle, and the owner refinances with another electronic lienholder, the lien change transaction occurs totally electronically, and there is no $14.00 title fee charged.

Owners also benefit by getting a clear title after payoff without filing a title application and $14.00. When the loan for a vehicle with a paper title has been satisfied, and the lienholder has signed off the title to release the lien and has provided the title to the owner, some owners like to take the paper title they receive and resubmit it to ITD so they can receive a new, clear title. With ELT, they receive a new clear title with no additional action or charge.
Paperless Title Affidavits

In Idaho, a Paperless Title Affidavit is a form produced by the paperless lienholder on their letterhead. It may serve one of two purposes:

1. Act as confirmation for the owner that the title is paperless, the lien has been satisfied, and a paper title has been requested. Upon receipt of payoff, since there is no paper title to provide the owner, the lienholder may provide this affidavit instead.

2. Serve as an authorization for a name change to an existing paperless title. If, while the title is paperless, the owner wishes to add another owner to the title, remove an owner from the title, or change the name on the title (e.g., due to marriage, divorce, etc.), the owner and lienholder may sign and submit the affidavit to request the change to ITD or a county assessor’s motor vehicle office, together with the $14.00 title fee.

Paperless title affidavit templates are available to participating lienholders upon request.

How to Participate in Idaho’s ELT Program

To participate in Idaho’s ELT program, a lienholder who has obtained an ELT service provider simply needs to provide identifying information to incorporate in a standard ELT agreement. Once this information has been received, ITD will customize a pair of identical agreements, and will sign them and mail them to the lienholder. Upon receipt, the lienholder will sign both copies, return one to ITD, and keep the other for their records.
The information needed for the ELT agreement includes:

- Complete business name
- Physical address
- Contact person's name, job title, mailing address and email
- Lienholder address to be shown on e-titles
- Desired start date
- Name of service provider
- EIN (Employer Identification Number/Federal Taxpayer I.D.)

Authorized ELT service providers for Idaho include:

**Secure Title Administration, Inc**
2975 Breckinridge Blvd Suite 200
Duluth, Georgia, 30096
(866) 742-1466
Email: securetitleinfo@secureTA.com
