

Mom Buckled Up- **AND SURVIVED.**

Margo was driving alone near Moscow when her vehicle was hit by a car that had lost control on slushy roads... causing her to hit a utility pole. She was buckled up.

Margo and her family buckle up every trip, every time, because safety restraints can prevent serious injuries or death.

**MARGO SURVIVED
THE CRASH BECAUSE
SHE WAS WEARING
HER SEAT BELT.**

SURVIVE FOR YOUR FUTURE & YOUR FAMILY.

Mom Buckled Up- **AND SURVIVED.**

Make sure everyone in your vehicle is buckled up before you start driving.

Kids and teens learn by watching their parents and grandparents. Set a good example by buckling up every trip, every time.

From
2010-2014 
... **710** IDAHOANS ...
were killed in crashes.

Of those killed
... **55%** WERE NOT WEARING
THEIR SEAT BELTS.

 **27% of those seriously injured were not wearing their seat belt.**

- Wearing your seat belt is your best defense in a crash.
- Unbelted occupants can injure others in a crash.
- Airbags are designed to work with your seat belt.

This Toward Zero Deaths message is brought to you by the Idaho Transportation Department and your Law Enforcement Agency.
