

I-15 OSGOOD RAMP

MID-SEPT. – LATE OCT. 2017

The Idaho Transportation Department will reconstruct three of the ramps at the I-15, Osgood Interchange (Exit 128). The Osgood Interchange is located north of Idaho Falls.

The existing ramps were designed in 1958 and need to be improved. New, longer ramps will give vehicles more room to accelerate and decelerate when entering and exiting I-15.

The project includes:

- Replacing the northbound on-ramp and both southbound ramps.
- Realigning the ramps to improve sight distance.
- Upgrading guardrail.

Traffic impacts:

- Occasional lane restrictions on I-15. Shoulders will be restricted.
- The speed limit on I-15 will be reduced to 65 mph.
- The northbound on-ramp will be closed for approximately three weeks. Traffic will be detoured to the I-15 interchange in Roberts, Idaho, via Bassett Road (Old Highway 91).

CONSTRUCTION AHEAD – 2017

The Idaho Transportation Department is resurfacing deteriorated pavement and repairing numerous bridges on I-15 in eastern Idaho.

The Osgood Ramp Extension project is one of 10 projects underway in 2017. Work on I-15 will continue for several years.

Overall traffic impacts will include:

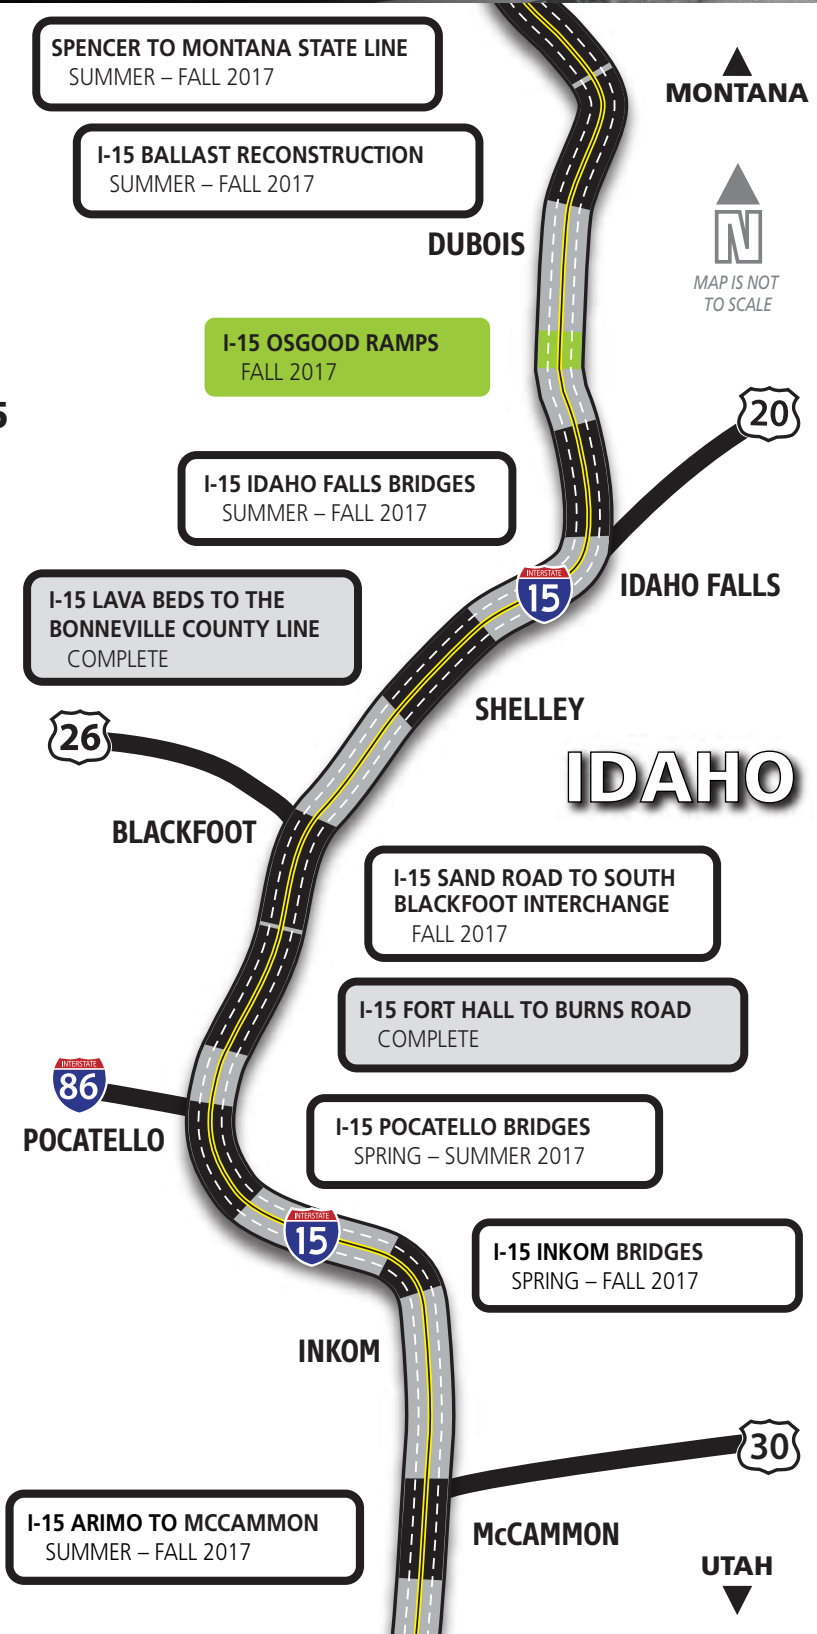

- I-15 will be reduced to one lane in each direction in project areas.
- Interchange ramps and shoulders will be closed occasionally.
- Speed limits will be reduced.

To help you drive through construction, please:

- **Plan extra time** to travel through the construction zones.
- **Pay attention** to signage and changing traffic patterns.
- **Slow down** as speed limits will be reduced.
