• **White Permit Copy** – Place the white permit copy, folded on the line below, in the rear window with the expiration date viewed from the rear outside of vehicle.

**Additional Supporting Documents**

The following are additional documentation that may need to be included with the title applications.

- **Title**
  - Title must be signed off by the seller to release their interest. If the dealership needs to obtain the title from a Lienholder, make sure to obtain a VIN specific Power of Attorney (POA). This will enable the dealership to sign for the customer.
  - If there is no lienholder, and the customer does not have a title, a duplicate title application will need to be applied for. A POA can be utilized to sign for the duplicate title application, however the POA must be notarized.

- **Power of Attorney ITD3368**
  - A customer can complete a POA to appoint a business or individual and the attorney-in-fact for a sole and limited purpose. The ITD 3368 limits the POA to endorse, release, or transfer all registration and ownership documents required by Idaho statutes for a VIN specified vehicle/vessel. ITD 3368 also grants the attorney-in-fact full power of replacement and cancellation relating only to the specified vehicle/vessel.
  - A notarized POA must be used in the event a duplicate title application is being submitted.
  - It is important to note that there can be no corrections to the POA. It must be original.

- **Bill of Sale**
  - Submitting the Bill of Sale is another way to show release of interest from the selling owner of the vehicle.

- **Indemnifying Affidavit ITD3410**
  - This form is used in the event that further explanation is needed in order to complete the title application. Some examples may be for detailed explanation on errors or corrections on a title.

- **One and the Same Statement ITD3125**
  - Sometimes it is necessary to complete a One and the Same Statement (OAS) if name appears differently on the 502 as it does on other submitted documents i.e., driver’s license or title. Examples may be someone changed their name due to marriage status or a Suffix (Jr, Sr) was omitted.

**Brands**

- **Rebuilt Salvage**: Every vehicle or vessel previously determined or declared to be a salvage vehicle that has been rebuilt or repaired using like make and model parts and visually appears as a vehicle
or vessel that was originally constructed under a distinctive manufacturer. This includes a salvage vehicle or vessel which is damaged to the extent that a "rebuilt salvage" brand is required to be added to the title. [IC 49-123(2)(m)]

- **Previous State Brand**: A vehicle that has been deemed as branded in a previously titled state.
- **Reconstruct**: A rebuilt vehicle using like make and model parts that visually appears like a vehicle originally constructed under a distinctive manufacturer. This includes a salvage vehicle with two or more damaged, major component parts needing repair or replacement.
- **Repaired**: A vehicle declared salvage after July 1, 1994 and before July 1, 2008, with only one damaged major component part needing repair or replacement. After the vehicle has been repaired, it was presented to the Motor Vehicle Investigator for attachment of a Repaired Vehicle decal.
- **Other**: Any other brand i.e. recovered theft.
