

June 2019 Board Report

- **2019 Equipment Roadeo**
State Final was last week in District 3
- **UAS Drone Standardization** Event in Boise. Attended by:
 - Federal Aviation Administration
 - public-sector stakeholders from state
 - county and city entities
 - private-sector businesses and consultants
 - Idaho National Laboratory
 - universities, research centers
 - Pacific Northwest Economic Region’s (PNWER) Center for Regional Disaster Resilience.
- We are now in Idaho’s **100 Deadliest Days**
(102 people killed during this time last year)
- **Boat-check stations** across the state are now open.
Primarily positioned near state borders, stations check for aquatic invasive species (AIS), such as zebra mussels, being transported between watersheds.

The stations are part of a larger effort by the Idaho State Department of Agriculture (ISDA) to prevent the spread of AIS.
- **“Drive Idaho”** online Services Website is now live.

- Beginning on July 1, two new services will be added:
 - Commercial Truck Registrations
 - Oversize / Overweight Trip Permits

“SKIP THE LINE BY GOING ONLINE”

- Providing **Traffic Incident Management Training** given to incident responders to help promote
 - Safety of all responders
 - Quick clearance
 - Interoperable Communication

The training is gaining momentum among all responders in the state

Providing classes in Meridian (June), Moscow (July), and Pocatello (Aug).

Approached by the College of Eastern Idaho in Idaho Falls to provide training and possibly use their campus as a training location.
