Extensions for Driver's Licenses, Permits & ID Cards

Effective immediately, the Idaho Transportation Department has extended all Driver's Licenses, Driver's Training Permits, Instruction Permits, Commercial Learner's Permits, Identification Cards, and Commercial Driver's Licenses (CDL) without hazmat endorsements that are expired or will expire between **March 1, 2020 and May 31, 2020**, to be valid until June 30, 2020. CDL holders will still need to comply with medical certificate requirements to be considered valid.

Effective April 1, 2020, the Transportation Security Administration (TSA) has allowed Idaho to extend security threat assessment expirations for drivers with Hazardous Material endorsements (H or X).

Drivers with these endorsements who expire between March 1, 2020 and July 31, 2020, are granted this extension until August 31, 2020. Per TSA direction, a driver subject to this extension must initiate his or her security threat assessment renewal by July 1, 2020 (no less than 60 days prior to the expiration of the extension).

Please be aware the department is not issuing any reprinted credentials because of these extensions. At this time, it is only issuing this blanket notice. It is recommended that anyone with an expired credential covered in this notice carry a copy of the notice posted below titled "Idaho DMV Notice of Emergency Extensions for CDL Holders with a Hazmat Endorsement."

If you need to visit a DMV, please contact your local DMV office prior to travel to ensure they are open for business. Some counties are available by appointment only, by phone and /or mail to process transactions. You may also call Idaho Transportation Department at 208-334-8000.
