

I-84/US-93 Interchange Ramp Construction

PROJECT OVERVIEW:

The Idaho Transportation Department is planning a construction project for the I-84/US-93 Interchange on- and off-ramps (Exit 173) north of Twin Falls. The project will resurface the ramps, upgrade signals, and construct a right turn lane for the westbound I-84 off-ramp to improve traffic flow. Construction is expected to begin August 2023 and last for approximately two months.

IMPACTS:

- Lane reductions will be in place at the on and off-ramps ramps south of I-84.
- Temporary closures will occur at the on and off-ramps north of I-84.
- Motorists will drive on a gravel surface during the day when construction is underway on the westbound on and off-ramps.
- Construction on the on- and off-ramps will be staggered and no more than one ramp will be closed at a time.
- Each ramp closure is expected to last for approximately 4 nights.
- Motorists will need to use alternate routes when closures are in place.
- Signs, and possibly flaggers or a temporary signal, will be in place to direct motorists.

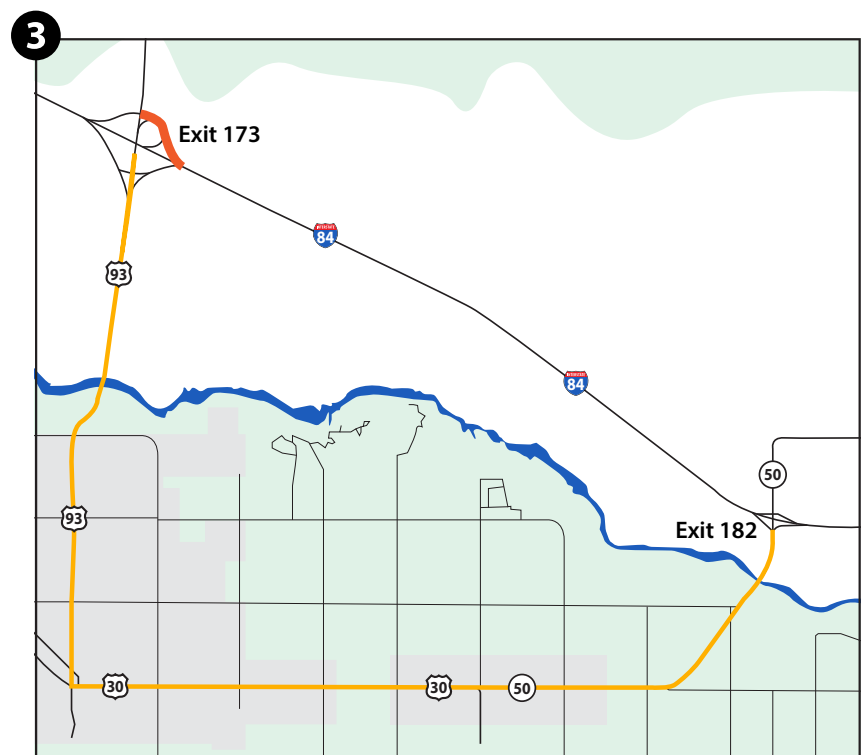

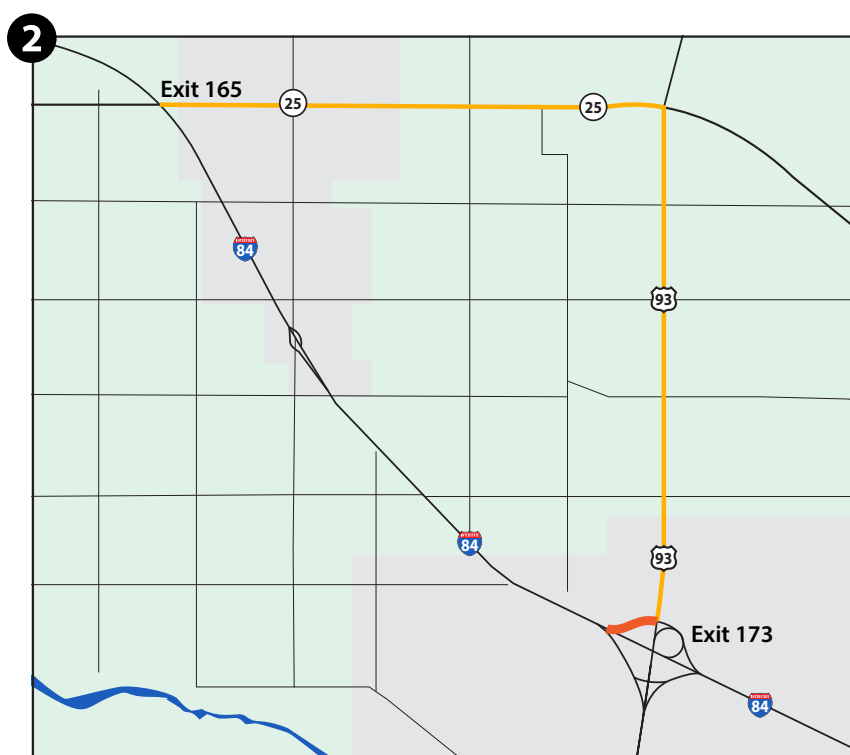

KEY

- Lane Reduction
- Detour
- Lane Closure
