Question Number	Date Received	RFQ Section	Question	Answer	Date Posted
1	12/31/2024	3.4.1	As mentioned in the RFQ section 3.4.1 (screenshot below), the cover letter asks for information regarding site that we are interested to apply. Does this mean we need to give the actual charger installation location addresses within the service areas we select in the cover letter also, or do we just select potential service Areas we intend to develop/apply for at this stage?	No. During the RFQ, a specific address or location does not need to be identified. The cover letter must identify the Service Area for which the Applicant is submitting an SOQ.	1/7/2025
2	1/6/2025	2	I did not see the bid on your DOT quest CDN server, is there any additional information on this projecct you could provide?	Additional information can be found under https://itd.idaho.gov/business/ under the Design Build tab. We are looking into if a link can be added to the Quest CDN server.	1/7/2025
