

Little Goose Creek Bridge Replacement

The Idaho Transportation Department is replacing the Little Goose Creek Bridge along State Highway 55 near New Meadows. The bridge has reached the end of its design life. The purpose for this replacement is to enhance the overall safety, mobility and needs of the traveling public.

The project includes:

- Replacing the bridge
- Improving the approach at Last Chance Road
- Widening shoulders

During construction, motorists can expect:

- SH-55 will be reduced to one lane with flaggers and a traffic signal.
- Speed limit will be reduced.
- Last Chance Road will be closed from July 8 until late 2024.

Work is expected to begin in June and wrap up in late 2024.
