

I-84 Burley and
Heyburn Interchanges
Minidoka County

I-84 Burley & Heyburn Interchanges Project Public Involvement Meeting Summary #2

The Idaho Transportation Department (ITD) hosted in-person and online public meetings to share design plans for the future reconstruction of the I-84 Burley (Exit 208) and Heyburn (Exit 211) interchanges.

ITD also invited key stakeholders, including elected officials and business owners, to attend an earlier session to view information and ask the project team questions.

Feedback and Input

Comments were not edited for grammar or spelling.

“Please make the exits look inviting for outside people to stop and spend money in our town..”

“We Burley Folk want to have our exits well landscaped turf grass that is mowed is the most desirable”

“Looks Great! might consider extending the 3rd lane all the way to the Loves exit for truck traffic”

“Also, I’m concerned about the lights on the Burley interchange. They might stop a lot of traffic, which goes from Paul to Burley an vice versa.”
