International Registration Plan (IRP) – Actual Distance Requirements

Statement of Understanding

Registration Year	Account Number	Fleet Number	IRP Account Name
-------------------	----------------	--------------	------------------

I, _____ (*printed name*), understand that Commercial Vehicle Services is granting me a one-time exception from the International Registration Plan (IRP) requirement to report actual distance for Idaho and one (or more) additional jurisdictions for this registration Year.

I also acknowledge that failure to operate and/or report actual distance in Idaho and at minimum, one additional IRP jurisdiction for all subsequent Registration Years will result denial of IRP registration credentials for a minimum of eighteen (18) months.

IRP requirements can be found at www.irponline.org. References specific to distance reporting are Article II, Apportionable Vehicle and Article II, Reporting Period.
