

Street sweeping practices

ITD Fact Sheet

Street, Road, Highway, & Parking Lot Sweeping

ITD has a Cooperative Agreement with the City of Lewiston for the maintenance of US-12, US-95, SH-128 and the Frontage Road.

Per the agreement, the City performs the sweeping on the following areas:

US-12, MP 0.0 to MP 3.29, along US-12, beginning at the west city limits on Interstate Bridge via Snake River Avenue, First Street, D Street Extension, east along the Dike Bypass to 18th / Main Street Intersection, continuing east along Main Street to 21st Street / G Street Intersection, then across the Memorial Bridge to the east end of US-12 / US-95 Intersection.

Frontage Road, MP 2.403 to MP 3.398 (US-12), includes the Frontage Road from 3rd Avenue's intersection of US-12 east to the end of the Frontage Road with it intersects with US-95 / US-12.

Per the agreement, ITD performs the sweeping on the following areas:

US-95, MP 310.75 to MP 312.5, along US-95, beginning at the east City limits, continuing east to SH-128 / US-12 intersection including all ramps.

SH-128, MP 0.00 to MP 2.198, along SH-128, beginning at the west city limits, continuing east to SH-128 / US-12 intersection including all ramps. SH-128 does not drain directly to the Clearwater River.

In the ITD jurisdictional area of sweeping, we do not have areas where it is technically infeasible to sweep.

US-12, from MP 2 to MP 3, has curb and gutter. The City utilizes pickup sweepers for their areas. ITD has an Engin pickup broom for sweeping in the curb and gutter areas also. In the areas without curb and gutter, such as SH-128 and easterly US-95, a Broce side cast broom is utilized.
