

# Fleming Creek BRIDGE

The Idaho Transportation Department is replacing the State Highway 55 Fleming Creek Bridge approximately 3.7 miles south of Banks. The bridge has reached the end of its design life. Replacing the bridge will ensure Fleming Creek can safely and reliably cross under SH-55 to the Payette River.

**Work is expected to begin in September 2024  
and be completed in Spring 2025.**

**During construction, motorists can expect:**

- Most work will take place Monday through Friday from 7 a.m. to 5 p.m.
- The speed limit will be reduced on SH-55.
- 11-foot width restrictions and no shoulders throughout the work zone.
- Intermittent night work and lane closures from 8 p.m. to 7 a.m.
- Flaggers and a temporary traffic signal will direct motorists during lane closures.

Your Safety • Your Mobility  
Your Economic Opportunity
