ITD - Qualified Products List

Register

Login

Welcome to the home page of the Qualified Products List web application. This application allows users to view products pre-qualified for use on Idaho Transportation Department (ITD) projects. The list is compiled and maintained by ITD. The list includes manufactured products that exhibit satisfactory compliance to a given specification according to ITD subject matter experts.

In accordance with the ITD Standard Specifications for Highway Construction, SECTION 106 – CONTROL OF MATERIALS, the Department classifies products as either Qualified Products List (QPL) products or Non-QPL products. Non-QPL products are not tracked in the QPL application.

According to the ITD Quality Assurance Manual, SECTION 240 – PRE-TESTED AND PRE-QUALIFIED MATERIALS, QPL products still need the appropriate tests and certifications as required by the contract to be accepted on the project. Qualification of a product is not blanket approval for use on all projects or applications. QPL products must be used as specified and in accordance with any conditional requirements. Where there is a conflict between the QPL and the contract provisions, the contract provisions shall take precedence over the QPL.

Products may be removed from the QPL for non-conformance with specifications or performance requirements. The Department must be notified in writing of any change in product formulation or contact information. All products are subject to **annual** recertification.

Product Applications

(New

The screenshot shows the 'ITD - Qualified Products List' application. On the left is a navigation sidebar with sections: 'Navigation' (containing Home, Approved Products, Product Categories, Product Subcategories, Suppliers), 'Account' (containing Dashboard, Manage Account), 'Supplier' (containing Dashboard, Manage Supplier, Product Applications, Supplier Products, Product Transfer Requests), and 'QPL Site Help' (containing Evaluation Process, How to Search QPL Products). The 'Product Applications' item is highlighted. The main content area has a header 'ITD - Qualified Products List' with user 'QPL Administrator' and a 'Logout' button. Below the header is the 'Product Applications' section. It includes a 'Select Active Supplier:' dropdown set to 'QPL ADMINISTRATOR'. A search bar is present. A 'NEW APPLICATION' button is highlighted with an orange arrow. Below is a table with columns: Product Name, Subcategory, Category, Contact, Review Status, Final Determination, Submitted Date, and Actions. The table is currently empty. At the bottom right of the table area, it says 'Rows per page: 10' and '0-0 of 0'. An orange arrow points to the 'Product Applications' menu item in the sidebar. Another orange arrow points to the 'NEW APPLICATION' button. A third orange arrow points to the 'Logout' button in the top right header.

You may (Clone) an application of another QPL product that you have on the QPL, for simplicity. Remember to change pertinent information and replace ALL the uploads. Edit & remove the word (Clone).

The screenshot shows a web application interface for "ITD - Qualified Products List". On the left is a navigation sidebar with sections: "Navigation" (Home, Approved Products, Product Categories, Product Subcategories, Suppliers), "Account" (Dashboard, Manage Account), "Supplier" (Dashboard, Manage Supplier, Product Applications, Supplier Products, Product Transfer Requests), and "QPL Site Help" (Evaluation Process, How to Search QPL Products). The "Product Applications" link is highlighted. The main content area has a header "ITD - Qualified Products List" and a sub-header "Product Applications". It includes a search bar, a "Select Active Supplier" dropdown set to "QPL ADMINISTRATOR", and a "NEW APPLICATION" button. Below is a table with columns: Product Name, Subcategory, Category, Contact, Review Status, Final Determination, Submitted Date, and Actions. The table is currently empty. A modal titled "New Application" is open in the center, featuring a search input field labeled "Search Product (maximum: 1)" and three buttons at the bottom: "CLONE APPLICATION", "NEW APPLICATION", and "CANCEL". Two orange hand icons are overlaid on the image: one pointing to the "CLONE APPLICATION" button and another pointing to the "NEW APPLICATION" button.

When submitting any product on this list to be on the QPL, you will need to send a sample to the Central Materials Lab, to be tested, before the QPL evaluation takes place.

Once you receive the test report, please upload it to the original application and submit it.

The a link to the submittal form is here for your convenience. Please fill out completely and send it with the sample to the address listed. [Submittal Form ITD-1044.pdf](#).
