Subcontracted	Invoice + 20%
Heavy Duty	20,000lbs & over
Subcontracted	Invoice + 20%
EV isolation or Hazmat cleanup and remediation are subcontracted only	Invoice + 20%

Maximum tow rate charges are calculated port to port (time of call thru finish and return to home location), per hour, per towing unit and operator. Charges may be less than posted maximum charges.

Maximum storage rate charges are calculated per calendar day from time of dispatch thru time of removal from facility.

Service to vehicles located more than 15ft from maintained roadway will be considered off-road services and may be charged up to 200%

At times, subcontractors are needed to assist with service, bringing additional equipment, laborers, operators, or traffic control. JR Towing & Recovery LLC., is unable to control the rates that other contractors may charge, so subcontracted rates will be charged at invoice plus up to 20% handling.
